

Government Affairs Updates

June 9, 2021

Dear LPA Members,

We are pleased to announce that in light of increased regulatory activity at the Environmental Protection Agency (EPA), Rob Smith and his team at Mercury PR have developed a protocol to ensure the LPA stays on top of these emerging regulations and rulemakings that may impact member companies and the industry. Mercury will track EPA press releases and regulations, including pre-rules, proposed rules and final rules, on a regular basis and provide an aggregated memo to LPA members as needed. The memos will include the title, agency, type (i.e. final or proposed), and date of publication for each regulation/rule. The objective is to inform and educate, and take action if need be.

LPA EPA Reg Tracker

Please see the attached memo on a proposed EPA Rule on: *Phasedown of Hydrofluorocarbons: Establishing the Allowance Allocation and Trading Program Under the American Innovation and Manufacturing Act*. As noted in the regulatory tracker, the comment period for the HFC proposed rule is June 18 – July 6. HFC Proposed Rule -

<https://www.federalregister.gov/documents/2021/05/19/2021-09545/phasedown-of-hydrofluorocarbons-establishing-the-allowance-allocation-and-trading-program-under-the>.

Let Clark, Rob, or Pat know if this is something that may have an impact on your business.

.....
Mercury.
